Zapresic-Zabok railway modernisation to be financially supported by EU

**Funding:** National (Croatia)

**Duration:** Feb 2017 - Dec 2022

**Status:** Ongoing

**Objectives:**

The modernization and electrification of the railway line Zaprešić-Zabok is expected to begin by the end of this year. Its goal is the reconstruction and upgrade of the line in order to ensure safe and efficient rail transportation. After the project is completed, the line is expected to be included in the suburban rail transport network of Zagreb.

The plans provide for a complete reconstruction of the railway line, which will be equipped with appropriate safety signalling and telecommunication devices. Also, railway stations and crossings should also be modernized.
