

PROJECT

TInnGO

Transport Innovation Gender Observatory

Funding: European (Horizon 2020)

Duration: Dec 2018 - Nov 2021

Status: Ongoing

Total project cost: €3,979,503

EU contribution: €3,979,503

[CORDIS RCN : 218633](#)

Objectives:

Women face higher risks and burdens than men in transport, due to unequal access to resources, education, job opportunities and entrenched socio-cultural norms. The TInnGO project will develop a framework and mechanisms for a sustainable game change in European transport using the transformative strategy of gender and diversity sensitive smart mobility. It will address gender related contemporary challenges in the transport ecosystem and women's mobility needs, creating a route for Gender Sensitive Smart Mobility in European Transport, which considers diversity of different groups.

Methodology:

Intersectional analysis, with gender aligned to socio cultural dimensions, will be applied to different types of transport data, assessment tools, modelling of new mobility policies, planning and services to show prevalence of transport poverty in traditionally hard to reach groups.

TInnGO will show how inequalities are created and address gendered practices of education, employment, technological innovations and entrepreneurship as arenas for change and inclusion of gendered innovations. A Pan European observatory for gender smart transport innovation (TInnGO) will provide a nexus for data collection, analysis, dissemination of gender mainstreaming tools and open innovation.

TInnGO's emphasis on diverse and specific transport needs is shown in its unique comparative approach enabling contributions from, and influence of 13-member states in 10 hubs. These will employ qualitative, quantitative and design research methods, combining hands-on knowledge, concrete actions and best practices to develop gender and diversity sensitive smart mobilities and solutions through associated ideas factories (TInnGIdLabs).

No former EU-funded project has applied an intersectional gender approach to smartening transport. TInnGO will therefore lead research into a new era and use the knowledge to achieve impacts on Social, Economic, Environmental and European ambitions of growth, wealth and innovation.

Parent Programmes:

[H2020-EU.3.4. - Horizon 2020: Smart, Green and Integrated Transport](#)

Institute type: Public institution

Institute name: European Commission

Funding type: Public (EU)

Other programmes: MG-4-3-2018 Demographic change and participation of women in transport

Lead Organisation:

Coventry University

Address:
Priory Street
Coventry
