

PROJECT

TRA2020

The Transport Research Arena 2020 in Helsinki

Funding: European (Horizon 2020)

Duration: Apr 2018 - Oct 2020

Status: Complete

Total project cost: €768,350

EU contribution: €699,600

Call for proposal: H2020-MG-2017-SingleStage-RTD

[CORDIS RCN : 218278](#)

Objectives:

The overall objective of the project is to prepare for and provide support to the Transport Research Arena Conference (TRA) to be organised in 2020 in Helsinki, Finland. TRA is the European Transport Research conference which brings together representatives of transport stakeholders from all over Europe and beyond around research and innovation results and policy. The conference theme: "Enabling the transformation - transport and mobility (r)evolution for smart, green and integrated society" will be reflected in scoping keynote speech, sessions and demonstrations featuring the red thread of the TRA2020.

Methodology:

To be successful, this foremost European transport event calls for seamless coordination and cooperation of various areas of expertise across borders to realise and implement the conference. Furthermore, numerous stakeholders have been invited to contribute to TRA2020 conference contents. In the host country, The Ministry of Transport and Communications and its administrative branch organisations aim to create a favourable operating environment for services and new business models in the transport. The active participation of the ministry in the promotion of The TRA2020 serves as an excellent platform to pursuit these aims.

The proposal presents an action plan how to ensure the success of TRA 2020 as well as suggests an 'architecture' and organisation for future TRA conferences 2022 and beyond.

Parent Programmes:

[H2020-EU.3.4. - Horizon 2020: Smart, Green and Integrated Transport](#)

Institute type: Public institution

Institute name: European Commission

Funding type: Public (EU)
