

PROJECT

UKAutodrive

Funding: National (United Kingdom)

Duration: Oct 2015 - Oct 2018

Status: Complete

Objectives:

UK Autodrive is the largest of three separate consortia that are currently trialling automated vehicle technology as part of the government's "Introducing driverless cars to UK roads" competition launched to support the introduction of self-driving vehicles into the UK. The project brings together leading technology and automotive businesses, forward thinking local authorities and academic institutions to deliver a major three-year UK trial of autonomous and connected vehicle technologies.

Other funding sources: Innovate UK
